

## Meritor Parts

Meritor Parts - The Meritor Company is a premier international dealer built upon 100 years of tradition of service and quality. Meritor specializes in integrated systems with a range of modules and components to the original machine makers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage within the international operations. The company values all their clients and wants to ensure their success while anticipating their diverse requirements. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in just employing future focused workers. These top-caliber individuals could quickly get used to to changing environments and freely exhibit the level of performance and commitment required so as to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides all of their workers various chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, braking and suspension systems meant for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of their global engineering employees.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all over the globe in 19 countries and in 5 different continents.

The supplier development network is specially located to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
