

Concrete Hoppers

Concrete Hoppers - This particular accessory is a self-dumping hopper which automatically starts to dump as soon as bumper release touches the side of a dumpster. As soon as dumping is done, the hopper returns to a locked and upright position. This particular piece of equipment even comes with a cable which enables operation from the seat of the lift truck in order to have the choice of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
